

Tharindu devinda

Software Engineer internship

+94 71 455 1898 | Rajagiriya, Colombo | tharindudevinda629@gmail.com

Hi, I'm Tharindu devinda, I am currently pursuing a BSc. (Hons) in Computer Science and Technology at Uva Wellassa University of Sri Lanka. I am passionate about exploring modern technologies, especially in areas such as software development, artificial intelligence, and web technologies. Alongside my academic interests, I am also passionate about photography, which helps me stay creative and detail oriented. I am eager to apply my knowledge and skills in a practical environment and looking forward to gaining valuable industry experience through an internship opportunity.

SKILLS

Hard Skills

Programming Languages	: JavaScript, TypeScript, Python, PHP, Java
Web Technologies	: HTML5, CSS3, Bootstrap, Tailwind CSS, REST APIs
Frameworks & Libraries	: React.js, Next.js, Node.js, Express.js
Database Management	: MongoDB, MySQL, PostgreSQL
Tools & Platforms	: Git & GitHub, VS Code, Postman
Concepts & Practices	: Object-Oriented Programming (OOP), Data Structures & Algorithms, MVC Architecture Responsive Web Design, Version Control, Agile Development

Soft Skills

Problem-Solving, Communication, Adaptability, Teamwork

PROJECTS

HomePoint - Enterprise Resource & Construction Project Management System

- Tech Stack : Next.js, Node.js, Express.js, MongoDB, Redux
- Engineered a full-stack enterprise resource planning (ERP) system for the construction industry
- Implemented a secure role-based access control (RBAC) system to manage user permissions across
- Integrated a facial recognition attendance system to automate and streamline worker time tracking.
- Developed real-time modules for project progress tracking, inventory management with low stock alerts, and budget handling to prevent cost overruns.
- Designed a secure file sharing system for blueprints and project documents.

TaskOra - where tasks find their flow

- Tech Stack : Next.js, Nest.js, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM
- Developed a full-stack web application to address common team collaboration issues like unclear responsibilities and missed deadlines.
- Streamlined workflow management by implementing core features for task creation, assignment, status tracking, and deadline monitoring.
- Enhanced security and usability by integrating JWT-authenticated sessions and constructing personalized, role-based dashboards.
- Provided actionable insights into team performance and potential blockers by building real-time analytics charts.

poultryPro - A Farm Management System

- Tech Stack : PHP, MySQL, JavaScript, HTML, CSS, Bootstrap
- Developed a full-stack farm management system with an integrated marketplace, allowing farmers to directly list and sell products to customers.
- Implemented core features for real time product tracking, inventory management with automated low stock alerts, and customer order processing.
- Developed a complete farm management suite covering production tracking, inventory control, health monitoring, and cost management.
- Enabled decision making through integrated analytics on animal productivity, resource utilization, and operational efficiency.

TaskOra Expansion (Ongoing Project)

- Tech Stack : Next.js, Nest.js, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM
- Extending the TaskOra platform into a multi-tenant architecture to support complex, multi-team organizations.
- Engineering a hierarchical permission system that allows administrators to create, manage, and oversee multiple isolated teams within a single organization.
- Building invitation workflows for seamless team onboarding and isolated task boards to maintain project focus and security.
- Designing organization-level analytics dashboards to provide high-level insights into cross-team productivity and resource allocation.

EDUCATION

Bachelor of Science (BSc) in Computer Science and Technology Uva Wellassa University of Sri Lanka	2022 - 2026
G.C.E Advanced Level - Physical Science Asoka Vidyalyaya, Colombo 10	2017 - 2020

EXPERIENCE

Web Master

Uva Rayon | Media Club of Uva Wellassa University
Mar 2025 - Present

- Manage and update content for the club’s website using modern web development practices.

Assistant Treasurer

FOSS Community UWU
June 2025 - Present

- Assist in managing the community’s budget and financial tracking.
- Collaborate with the executive team to plan and coordinate logistics for workshops and tech events.

CERTIFICATES

- HTML, CSS, JavaScript, React - Online Certification Course - Udemy - Oct 2025
- AI/ML Engineer - Stage 1 - SLIIT - Nov 2025
- Intro to Machine Learning - Kaggle - Nov 2024
- Getting Started with Machine Learning Algorithms - Simplilearn - Mar 2025
- Prompt Engineering with ChatGPT - Simplilearn - June 2025
